

Alternative Measures of Labor Underutilization -- New Hampshire vs United States

| Alternative Measure | Latest calendar year annual average | | Latest 4-quarter moving average | |
|--|-------------------------------------|-----------------------|---|---|
| | 2009 New Hampshire | 2009 United States | 4-quarter average -- fourth quarter 2009 through third quarter 2010 New Hampshire | 4-quarter average -- fourth quarter 2009 through third quarter 2010 United States |
| U-1 , persons unemployed 15 weeks or longer, as a percent of the civilian labor force | 3.2% | 4.7% | 3.5% | 5.7% |
| U-2 , job losers and persons who completed temporary jobs, as a percent of the civilian labor force | 4.5% | 5.9% | 4.2% | 6.1% |
| U-3 , total unemployed, as a percent of the civilian labor force (<i>this is the definition used for the official unemployment rate</i>) * | 6.4% | 9.3% | 6.0% | 9.7% |
| U-4 , total unemployed plus discouraged workers, as a percent of the civilian labor force plus discouraged workers | 6.8% | 9.7% | 6.4% | 10.3% |
| U-5 , total unemployed, plus discouraged workers, plus all other marginally attached workers, as a percent of the civilian labor force plus all marginally attached workers | 7.6% | 10.5% | 7.0% | 11.1% |
| U-6 , total unemployed, plus all marginally attached workers, plus total employed part time for economic reasons, as a percent of the civilian labor force plus all marginally attached workers | 12.5% | 16.2% | 12.0% | 16.8% |

* Due to small state sample sizes, monthly state Current Population Survey (CPS) data do not meet Bureau of Labor Statistics (BLS) publication standards, and moving average estimates of alternative measures for states had not been tabulated until recently. These data were developed by BLS from quarterly tabulations in which the components of each measure are rounded to the nearest hundred. As a result, the newly tabulated estimates contain slightly more rounding error than that found in typical CPS annual average tabulations (in which rates are based on unrounded data). Note that the unemployment rates (U-3) that are shown in the table are derived directly from the CPS. As a result, these U-3 measures may differ from the official state unemployment rates for the latest 4-quarter average period. The latter are monthly estimates developed from models used by the Local Area Unemployment Statistics (LAUS) program that incorporate CPS estimates, as well as input data from other sources.
